TESTIMONIALS

“I can’t believe how in sync with my concerns Andrew was, without knowing what they were. He connected with my specific symptoms in location physically as well as emotionally. After my one session lasting less than 30 minutes, I felt a lifting of my psychological blocks and physical pains, including restoring range of motion in left shoulder that has been persistently frozen for months despite physical therapy and massage. I recommended him to a friend immediately and highly recommend that you see him as well. Thank you Andrew.” Jessica Preston, Physician’s Assistant, Ann Arbor, Michigan

“Fantastic experience. How people can be so specific in picking up memories and past events is almost unbelievable, until you experience it.” Dan Trussler, Osteopath, United Kingdom
