

INTERNATIONAL SYMPOSIUM OF FUNCTIONAL MEDICINE PRACTITIONERS, LIVING PROOF INSTITUTE, TORONTO, ONT

THE GROUP CONSISTED OF MEDICAL DOCTORS, NATUROPATHS, CHIROPRACTORS, OSTEOPATHS, NURSE PRACTITIONERS & HEALTH COACHES

FRIDAY JULY 27, 2018 – 7: 45 PM – A 20 MINUTE GROUP HEALING SESSION – Anonymous Aggregate Results + Approved Testimonials

In traditional healing treatments of various healing modalities one practitioner treats one patient in private for typically 30 to 60 minutes. In this 20 minute group healing session Andrew attempted to assist the greatest number of individuals in one twenty minute session. In essence it was 1 practitioner treating 40 patients in 20 minutes. If one person benefited by the relief of symptoms from a short session it would be a success. If more than one individual benefited by the immediate relief of symptoms or exposure to fields of higher energy for long term benefits it would be a huge success.

RESULTS

2. Corrine, the other individual on the table, reported energy flowing, a buzzing and the elimination of neck pain and the improvement of grief and fatigue.
3. 35 in attendance completed an assessment form. 32 (91.5%) reported feeling either increased energy in the room, a change within them, or the lifting of a weight within the group.
